Japanese Claim Ring Of Steel Tightening Around Hsuchow

Hankow, May 17.

The Chinese authorities here still refuse to admit that the Lunghai Railway has been cut by the Japanese, and claim that Chinese defenders successfully drove off the attackers last night.

It is officially stated that the Chinese forces defending Hsuchow are still in control there, and have no intention of withdrawing.

While deep anxiety prevails over the situation in Hsuchow, Chinese artillery authorities here emphasise that extreme alarm is unjustified. -Reuter.

Tokyo, May 17. A Japanese claim states that, after several days of successful operations, the Japanese net of steel is tighten-

She is the only foreign correspondent in Hsuchow, and was last seen last week, riding a donkey up a steep hill overlooking the battle front at Lienfanshan, east of

Taierchwang and north of Pihsien. Foreign journalists who evacuated Hsuchow last week and arrived in Hankow on Monday night, stated

that trains were still running between Chengchow and Hsuchow five days ago, the journey taking four days.

Except for Chinese troops guarding bridges and stations, the journalists saw no troop movements on either side of the railway.

CLEVER **IDEAS** FOR THE HOME

DICTURES created entirely from cleverly mitred pieces of wood harmonise with rooms of any character. Yet there is no doubt that they look most imposing in a furnishing scheme glowing with off-white tints-or pastel tones.

A handsome new design in this type of picture shows a study of two leopards realistically inset with dozens of pieces of light woods-oak, elm, and rose wood-into a dark walnut background.

Such pictures are, of course, without frames, or glass coverings. All the edges are gently rounded off.

Table Cookers

WARIOUS new table cookers have been designed recently. One of the latest cooks by radiant heat. The food is put on a metal plate, and the plate is covered by a sort of deep inverted frying pan, fitted with electrical heating filament.

Food thus cooked is wellcooked. There are no wasted) juices and, with minimum care, the food will not be dried up.

It has been suggested as an ideal cooker on the breakfast table, when time is precious.

Bacon takes five minutes; eggs take about as long; and toast can be prepared this way, too.

What is more, the food in the cooker can be kept hot for twenty minutes after the current in the cooker has been switched off.

Home Laundry

THERE have been innovations Lately in the ways and means of washing clothes. The newest idea is remarkable for its simplicity.

It is merely the use of a suction plunger—a rubber cup fitted with a perforated disc-on a wooden handle. The clothes to be washed are immersed in soapy water, and the plunger is used to gently squeeze, aerate and thoroughly cleanse them.

sliced lemon. The plunger can be used also for rinsing clothes, an ample supply of water being, of course, as essential as the plunger.

New Mop

NOTHER item likely to be A appreciated by the busy housewife is a mop of a flexible handle. It can be passed under tables, cabinets, and other places usually inaccessible except by going on one's hands and knees with the polishing cloth.

After the flexible handle has been used, it can be reversed so that it is quite rigid. Then it is side by side on fireproof china ready for polishing the rest of the room.

The top of the mop is easily detached for washing and mangling before being re-clipped in place.

WHEN one is young there is always the temptation to do everything at the last moment—even to buying clothes. But the older-and more difficult-our figures become, we have learned by experience that it is best to have something ready in the wardrobe.

That is why I have chosen to-day a warm weather coat and dress, suitable for a matronly figure—just in case the weather sets fair for Easter.

This is how I reasoned it out; when a woman begins to feel conscious that she is outsize she hates to be parted from her coat. Hence the graceful long coat from Pontings

MAGNETIC STORM SWEEPS OVER HALF THE WORLD

Upset Britain's Telephone System

Thousands Of House Bells Kept Ringing

MAGNETIC storm, caused by a giant sunspot, upset Britain's telephone system recently. Thousands of 'phone bells in houses all over the country kept ringing, but the mystified subscribers lifted the receivers only to find no one calling them.

The trouble was not confined to Britain. The storm raged over half the world. In many parts of America and Canada all telephone and telegraphic communication was cut off several hours.

Sunday Dispatch that more magnetic storms are storm. If this had happened during the night coming in the next few months.

"We are approaching a period of maximum sun-spot activity," he added. "Sun spots come in 11-year cycles, and we are due to reach the maximum intensity of one of these cycles at the end of this summer."

POST OFFICE WAS WARNED

The Astronomer Royal, Mr. H. Spencer Jones, told the Sunday Dispatch that the sunspot was observed at Greenwich Observatory and that the Post Office was at once warned.

"The sunspot, which was ten times larger than the surface of the world, caused a magnetic storm 60 miles above the surface of the earth,' the Astronomer Royal added.

"The current of such a storm is usually a million amperes or more, and even at that great height can seriously interrupt telegraphic communications.

Pedestrian Strikes Back

The worm turned when a driver kept honking his horn because the automobile in front of him failed to move quickly enough to suit him. A pedestrian stepped off the side-walk and cracked the motorist on the head. Two stitches closed the wound.

Athlete's Foot

According to the Govern-ment Health Bulletin No. E-28, at least 50% of the adult population of the United States are being attacked by the

disease known as Athlete's Foot Usually the disease starts between the toes. Little watery blisters form, and the skin cracks and peels. After a while, the itching becomes intense, and you feel as though you would like to scratch off all the skin.

DEWARE OF IT SPREADING Often the disease travels all over the bottom of the feet. The soles of your feet become red and swollen. The skin also cracks and peels, and the itching becomes worse and worse. Get rid of this disease as quickly as possible, because it is very contagious and it may go to your hands or even to the under

arm or crotch of the legs. Most people who have Athlete's Foot have tried all kinds of remedies to cure it without success. Ordinary germicides, antiseptics, salve or ointments seldom do any good.

HERE'S HOW TO TREAT IT The germ that causes the disease is known as Tinea Trichophyton. It buries itself deep in the tissues of the skin and is very hard to kill. A test made shows it takes 15 minutes of boiling to kill the germ; so you can see why ordinary remedies are unsuccessful. H. F. was developed solely for the purpose of treating Athlete's Foot. It is a liquid that penetrates and dries quickly. You just

paint the affected parts. It peels off the tissue of the skin where the germ breeds. ITCHING STOPS IMMEDIATELY As soon as you apply H. F. you will find that the itching is immediately relieved. You should paint the infected parts with H. F. night and morning until your feet are well. Usually this

longer or in mild cases less time. H. E. will leave the skin soft and smooth. You will marvel at the quick way it brings you relief; especially if you are one of those who have tried for years to get rid of Athlete's Foot without

one mile from the city whilst another column is about 4 miles distant. The third column which crossed the Ko River recaptured number of villages in the outskirts and routed a Japanese unit in an engagement.

In west Shantung the Japanese, after capturing Hotseh and Kinslang, have not been able to make any progress. Strong Chinese reinforcements are tennciously holding out against them in the outskirts of the cities. A Japanese unit of 1,000 men has been halted by the Chinese at Matouchi, 30 kilometres north-west of Knocheng. Another' Japanese unit of 2,000 men from Wenshang has been repulsed by the Chinese at Chlenlintsi, 20 kilometres southeast of Chengwu.-Central News.

Heavy Fighting On Lunghai Railway

Hankow, May 18. Heavy fighting is proceeding two points on the Lunghai railway west of Hsuchow, according to the latest military despatches. A Japanese force on Monday afternoon appeared at Huangkowisi, cast Tangshan, and was encountered by n Chinese column advancing westward from Hsuchowfu and another, marching east, from Tangshan.

The Japanese column was subjected to a severe attack by the Chinese and the Chinese claim that the commander was killed, the remnants of his force retreating southwest towards Yungchen.

Between 200 and 300 Japanese troops appeared at Laihuan, cast of Lanleng, but were later repulsed. Early yesterday morning Chinese forces engaged Japanese troops at Jantaokou and Hullungtsi villages, south of Tangshan, and claim to have captured the commander of one of the Japanese battallons .-- Reuter.

Battle For Possession Of Hauchow

Shanghal, May 18.

The battle for the possession of the Lunghai Railway is being followed here with feverish interest. Judging by reports reaching Shanghal yesterday morning, the position of the Chinese defending forces continues to be extremely precarious despite the series of counter-attacks in front to relieve the Japanese pres-

The Japanese now claim to have got within nine miles of Hsuchow as result of yesterday's operations when they advanced from the southwest, from the west and north in a pincer manocuvre, thus narrowing down the possibility of the Chinese making a successful withdrawal from the town.

surc.

The most vulnerable point of the Chinese defence positions south-west of Hsuchow was subjected to a surprise attack by a Japanese motorised division.

Furious fighting is now in progress in this area as the Chinese are doing their utmost to prevent the Japanese from breaking through their lines with the aid of big squadrons of sir-

The report originating with the Japanese army command to the effect that the Chinese troops have resolved-indeed have already begun, according to other sources-to blow up the Yellow River embankment north-west of Hsuchow, has caused something of a panic as it is realised here that a measure of this sort would spell catastrophe for the civilian population. - Trans-

No General Withdrawal

Hankow, May 17. Observers here believe that even if the Japanese succeed in cutting the vital Lunghal Rallway cast of Hsuchow there will be no general Chinese withdrawal from the area.

It is stated that sufficient Chinese First Prize: \$20 Cash, donated by troops remain there to hold off the Japanese advance, in order to enable Second Prize: \$15 Cash, donated the main body of Chinese troops to concentrate on a new position, and take up a new line of defence,-Reuter.

NE REASON WHY HITLER INSISTS THE REICH HAS A VITAL INTEREST IN CZECHO-SLOVAKIA AFFAIRS IS THAT THERE ARE 3,231,688 GERMANS LIVING IN THIS LAND-LOCKED, 10-YEAR-OLD REPUBLIC. HITLER HOPES, TOO, THAT THIS GERMAN POPULATION WILL SERVE HIM AS "LEVERAGE" IN GERMANY'S EXPANSION IN CENTRAL EUROPE.

This minority group, the largest of German origin outside Germany, is the second /argest racial unit in Czecho-Slovakia. Only the Czechs, numbering 9,756,604, are more numerous. The country's U.S. Impatient total population is 14,729,536.

Germans in Czechoslovakia are generally spoken of as the Sudeten Germans because the majority of them live in the shadow of the Sudeten Mountain range between Germany and Bohemia. Bohemia is the largest province in Czechoslovakia. Smaller German groups live in the provinces of Moravia and Slovakia.

The republic was carved out of the old Austro-Hungarian Empire, of which it was the northwest portion, after the World War. Ever since, the German minority has been a political sore spot. The Germans complain they are the victims of police persecution and of political, cultural and economic discrimination.

The Sudeten region along the northwestern and northeastern frontlers of Bohemla is preponderantly industrial. The chief industries hre lighte mining centred at Aussig, textile manufacturing at Reichenberg and coal mining at Dux.

Formerly prosperous, the region was hard hit by the depression and the result is unemployment.

The Sudeten Germans belong to various political parties, the most important of which is Konrad Henlein's Sudeten German party. In the election of May, 1935, this party polled 1,249,497 votes, more than two-thirds of all German votes cast and the largest number polled by any party in the Czechoslovakia parliament.

Henlein's chief demand is rebasis for political organization of the Maida Vale, We-State—in other words, autonomy for the German-speaking regions,

The other German parties lost heavily in the 1935 elections. They include the German Social Democratic party led by Minister of Public Health Ludwig Czech, the "I WAS AMAZED" German Christian Socialist party and the German Agrarian League, headed by Pranz Spina, minister without portfolio.

These three smaller parties have been cooperating with the government. The German agrarians, however, recently endorsed an autonomy programme similar to Henlein's.

One of the outstanding German complaints is the alleged "persecution" by police of Germans who display sympathy with Nazism. The Hitler salute and display of the swastika are banned

The Sudeten Germans also object to the administration of the frontier regions which they inhabit by military authorities empowered to supervise virtually all phases of private and economic life.

Another charge is that there are fewer Germans in public office than the proportionate size of the German population warrants.

For Air Mail Over Atlantic

Delay On British Side Alleged

New York. American flying companies are impatient to start carrying mail between the United States and Europe this summer, whether Imperial Airways is prepared to do so or not.

The question is frankly discussed by the well-informed aviation correspondent of the New York Times. Pan-American Airways, he states, feels that the expense of last year's experimental fights might have been reduced by taking small mail loads. But the Anglo-American agreement covering airport rights and other navigation facilities provided that neither the American nor the British company should start until both were

INDIANS BEAT UNITED SERVICES R.C. COMFORTABLY

SCORE 8-1 WIN IN "A" SECTION TENNIS LEAGUE

GOLDMAN AND CLIFFORD IN BEST FORM

Even if the Indian did expect to bent the United Services Recreation Club in the "A" Division of the Hongkong Lawn Tennis League at Sookunpoo yesterday, I am sure they had no idea that they would get through so easily. Taking the first six sets, they had clinched the issue by the end of the second round, and wound up by winning the encounter by eight sets to one.

Nevertheless, beat Bradbury and Misra 7-5. they were not only off in their ground strokes, but they also showed a surprising weakness in their volleying and smashing. This was particularly noticeable in the case of Goldman, who made a number of mistakes overhead-a phase of the game in which he is usually so good.

TOOK ONE SET

Showing an improvement in the last set, they were the only U.S.R.C. pair to take a set. This they did against the Indans' third string, A. R. Minu and I. M. A. Razack, in the lost round after the issue had been decided.

One of the features of the match was the manner in which 'H. D. Rumjahn and A. H. Madar polished off Goldman and Clifford in the second round after they had been held to a long drawn-out set in the first by Bradbury and Misra, who were beaten by 7-6. Weak opposition, rather than the brilliance of the home team, allowed K.C.C. to entertain and beat South China A.A. by eight sets to one. Generally speaking, the standard of play rarely rose above that of "B" Division.

The visitors, electing to play strict defensive tennis, seldom appeared likely to extend the K.C.C. pairs, and only in two sets did they hold their own. Liu and Ho beat Guest and Gray after the latter, had led 5-4 with Guest's service to follow, and Crawford and Burnett only just "pipped" Chan and Ip in the 12th game.

The Finchelr brothers sailed through three sets for easy wins, and were not unduly extended.

Nevertheless the K.C.C. will need stronger sides if they are to be count-

Defeat Navy By 6-2

Playing the third of their series of matches in the Colony, the Salgon football players defeated the Royal Navy at Causeway Bay yesterday by six goals to two after being led twonil at half-time.

Once again, the visitors played the other encounters, the winners splendid football. Apart from the first half when they appeared rather uncertain, their speed and ball-control featured their game again, and their victory was well deserved. No. 15520

A Domei report issued at 10.30 a.m. to-day states that Japanese artillery has intensified the bombardment of Hsuchow and the surrounding valley, following the arrival of mountain guns.

Meanwhile, a Japanese spokesman states that Japanese troops have succeeded in crossing the Kwei River six miles south of Suhsien, and are now advancing on Suhsien.

Objective Is Hankow

Peiping, May 17. "Our objective is to annihilate the Kuomintang and to occupy Hankow," said a Japanese spokesman to-day.

He added that it was likely that Hsuchow would be occupied this week at the latest, since Japanese columns approaching from the west, east and south-west were the "doomed" city. The column approaching from the south-west was now within 12 miles "almost artillery range"-

of Hauchow. It is understood that Japan's North China Army Headquarters are to be moved from Peiping to an undisclosed place in Shantung, General Terauchi, Japanese Commander-in-Chief of the North China forces, will soon move with his staff.--United Press.

Stubborn Resistance

Tokyo, May 18. Vanguard troops of the Japanese army advancing on Hauchow from the vicinity of Sinchsien clashed with the main body of Chinese troops outside Yaolu, a small town 15 kilometres south-west of Hsuchow, at 5 o'clock yesterday afternoon, it was reported here to-day.

From "pill-box" positions the Chinese are said to be offering stubborn resistance and fierce fighting is still in progress.

Japanese occupation of Hauchow is expected within the next few days. (Continued on Page 5.,

He had a series of misfortunes in connection with the business. To begin with in 1932 there were certain thests from one of the godowns, and necused was held liable for the loss, amounting to about \$4,000, in a test case at the Summary Court. In 1933, he was swindled by one of the dealers to the extent of \$3,000, and it was this very swindle that suggested to him the methods which he subsequently adopted to perpetrate the The method was simple: necused would send for goods which were held in the godown against certain bills drawn upon him and there was no question of his taking the goods until he made good the liabilitles on the bills. Accused would be supplied with a book of delivery orders and it would be up to him to fill in the amount of goods he required and for which he was prepared to pay. After filling in the particulars, accused would take the order to the Chartered Bank, which would then endorse It. It was this form of particulars which resulted in accused himself being swindled in 1933. The dealer in question made out an order for two cases of goods. took it to the Bank, and later altered the figure to six, thereby causing ac-

In 1933 and 1934, he committed five or six offences, but those he paid up eventually. Things went on like these and the years, 1935 and 1936, proved to be disastrous to him possuse exchange fluctuated so rapidly. NO STRICT CHECK

"The simplicity of the method," continued Counsel, "formed no excuse of course but I think it does stand in his favour that this is not the kind of case in which a man deliberately employed his ingenuity at a criminal direction. It was a perfectly simple method and, although one cannot blame the Godown Company, there can be no denying the fact that had there been a check the frauds would have come to light

"It cannot be said," concluded Counsel, "that these ill-gotten gains were made use of by him for his benefit. It was a combination of unfortunate circumstances. IT'S OFTEN A SIGN OF

Athlete's Foot According to the Govern-ment Health Bulletin No. E-28, at least 50% of the

adult population of the United States are being attacked by the disease known as Athlete's Foot. Usually the disease starts between the toes. Little watery blisters form, and the skin cracks and peels. After a while, the itching becomes intense, and you feel as though you would like to scratch off all the skin.

DEWARE OF IT SPREADING. Often the disease travels all over the bottom of the feet. The soles of your feet become red and swollen. The skin also cracks and peels, and the itching becomes worse and worse.

Get rid of this disease as quickly as possible, because it is very contagious and it may go to your hands or even to the under

arm or crotch of the legs. Most people who have Athlete's Foot have tried all kinds of remedics to cure it without success. Ordinary germicides, antiseptics, salve or cintments seldom do any good.

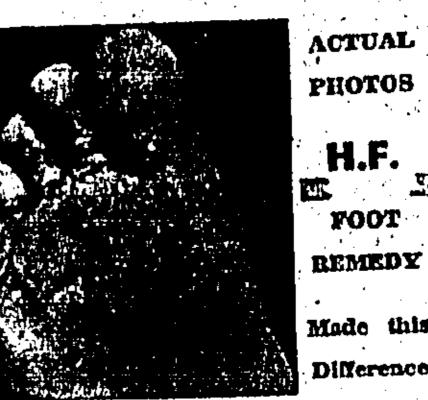

HERE'S HOW TO TREAT IT, The germ that causes the disease is known as Tinea Trichophyton. It buries itself deep in the tissues of the skin and is very hard to kill. A test made shows it takes 15 minutes of boiling to kill the germ; so you can see why ordinary remedies are unsuccessful. H. F. was developed solely for the purpose of treating Athlete's Foot. It is a liquid that penetrates and dries quickly. You just paint the affected parts. It peels off the tissue of the skin where the germ breeds.

ITCHING STOPS IMMEDIATELY As soon as you apply H. F. you will find that the itching is immediately relieved. You should paint the infected parts with H. F. night and morning until your feet are well. Usually this takes from three to ten days, although in severe cases it may take longer or in mild cases less time.

H. F. will leave the skin soft and smooth. You will marvel at the quick way it brings you relief; especially if you are one of those who have tried for years to get rid of Athlete's Foot without

SIR HENRY

He Was A Brilliant Administrator Says History

By T. Paul Gregory

A name that is familiar to all the older residents of the Colony is that of Sir Francis Henry May. His long career of over thirty years in Hongkong was remarkable inasmuch as he rose from a Cadet in the Civil Service to be Governor-a series of promotions unprecedented in the annals of Imperial methods—and, moreover, they attest the great value placed upon his ability by his superiors in the Colonial Office.

Seven Years In Office

Sir Henry May was in office until 1919, and during this term of years he proved over again his eminent abilities as a colonial administrator. In short, he ranks as one of the Colony's most conscientious Governors, and by his death at Clare Priory, Suffolk, England on February 16, 1922, Hongkong lost one of its most capable. public servants who had given so many years of devoted service in promotion of its welfare. SCORE 8-1 WIN IN "A" SECTION TENNIS LEAGUE

GOLDMAN AND CLIFFORD NOT IN BEST FORM

Even if the Indian did expect to beat the United Services Recreation Club in the "A" Division of the Hongkong Lawn Lengts League at Sookunpoo yesterday, I am sure they had no idea that they would get through so easily. Taking the first six sets, they had clinched the issue by the end of the second round, and wound up by winning the encounter by eight sets to one.

The court might have had something to do with the poor display of Goldman and Clifford. They were unfortunate to take a court in which hare patches appeared here and The ball also did not always bounce well for them. Novertheless, they were not only off in their ground strokes, but they also showed a surprising weakness in their volleying ond smashing. This was particularly noticeable in the case of Goldman, who made a number of mistakes overhead—a phase of the game in which he is usually so good.

TOOK ONE SET

Showing an improvement in the last set, they were the only U.S.R.C. pair to take a set. This they did against the Indans' third string, A. R. Minu and I. M. A. Razack, in the last round after the issue had been l decided.

One of the features of the match was the manner in which H. D. Rumjahn and A. H. K.C.C. WIN BUT ARE NOT IMPRESSIVE

Weak opposition, rather than the brilliance of the home team, allowed K.C.C. to entertain and beat South China A.A. by eight sets to one. Generally speaking, the standard of play rarely rose above that of "B" Division.

The visitors, electing to play strict defensive tennis, seldom appeared likely to extend the K.C.C. pairs, and only in two sets did they hold their own. Liu and Ho beat Guest and Gray after the latter had led 5-4 with 'Guest's service to follow, and Crawford and Burnett only just "pipped" Chan and Ip in the 12th game...

Playing the third of their series of matches in the Colony, the Salgon football players defeated the Royal Navy at Causeway Bay yesterday by six goals to two after being led twonll at half-time.

Once again, the visitors played first half when they appeared rather uncertain, their speed and ball-control featured their game again, and their victory was well deserved. There was no doubt which was the superior team, especially in the latter of the game.

The forward line moved well together and made rings round the Navy defenders. All five took shots through in the National Baseball G. C. Burnett and A. Crawford at goal whenever the opportunity League, three matches were washed son to local forwards on how and when to shoot. The defence played

Canada May Supply Planes To Britain

Ottawa, May 17. A gradual expansion of the Canadian aircraft industry is expected here as a result of the negotiations between the British Air Mission and the various companies concerned.

The Defence Ministry has laid before the Mission the results of a survey, showing that at least eleven Canadian companies are ready to turn out service planes suitable for the British Air Force. The Minister for Defence has expressed the opinion that most of the companies are well able to handle substantial orders from Great Britain.

At present at least 200 planes of eight different types are under construction in Canada for the British and Canadian governments and for export elsewhere.-Reuter.

For New Pact With Ireland

London, May 17. The Eire Agreement Bill passed the remaining stages in the House of Lords last night and is receiving Royal assent this evening. In consequence of the enactment of the Anglo-Irish Pact by the parliaments of both countries, the Trade Agreement has been arranged to come into force on May 19. On this date, special British duties on goods from Eire, and the Eire retaliatory duties, will be abolished, while specific tariff adjustments will be brought into operation. In addition, licences will no longer be required for the importation of Eire

The last of these was water-polo players taken at a speed

of a two-thousandth part of a second.

Taking this vivid impression of an asbestos-clad man working at high speed in a shower of flying sparks was, photographically speaking, a slow process. A streenth part of a second was the exposure given, and the only light was that from the sparks.

The workman was piercing a east-iron block 10 inches thick with an oxy-acetylene lance. It took him five seconds.
